

NIXIE LINK

4 UI buttons

105 Ah battery

Type C Connector

2 IN- 16 NIXIE TUBES

TTGO Micro 32 IoT Module

Built in Self Defense mode

128x32 OLED Context Display

For over 20 years, the nixie smartwatch has existed in various forms. However none of them have integrated into the internet of things. Introducing the NixieLink, with an OLED display, two IN-16 nixie tubes, and a ton of other modern day features, it's a little bit of the old mixed with the new.
